Taylor Engineering and Fabrications Ltd
Municipal Spares and Repairs
Unit D St Clements Road
Nechells
Birmingham B7 5AF

At Taylor Engineering and Fabrications Ltd. we specialise in dustcart and other waste collection vehicle repairs and spare parts. We can repair all types of dustcart from Front end loaders to Hook lifts and skip loaders.

We keep over 2500 parts in stock for next day delivery from our stores in Birmingham. If it's a special part not stocked, we can manufacture here in our workshop, getting your vehicle back on the road as quickly as possible. If you're waiting for a machined part for your vehicle from overseas and it has a long lead time, we may be able to manufacture it quicker and cheaper in house, to get your vehicle back up and running. We replace only what is absolutely necessary and refurbish what we can to extend the life of your vehicle whilst keeping costs down.

We have a combined total of over 50 years' experience in the refuse industry and can offer:

- To supply or supply and fit new body or hopper floors
- Blade and/or slide refurbishment
- Cylinder replacement (we can also repair cylinders if economically viable)
- Hoist overhaul (Take apart hoist and/or slide and change all damaged parts)
- Any necessary welding repairs done by coded welders
- Grind out any cracks and weld them up. Then plate over if necessary.
- Supply and fit new lifting hooks
- Supply and fit new net carrier arms and net roller on sheeting systems
- Supply and fit side cheeks for the inside of dustcart hoppers
- We can paint our repairs to your vehicle to any RAL colour to suit your fleet
- We offer a collection and delivery service to bring your vehicle to our workshop for repairs and deliver them when complete

At Taylor Engineering and Fabrications, we offer a combination of CNC machinery and coded welders which enables us to be a 'one stop shop' for all your engineering needs. Our capacity includes:

- CNC Lathe and Milling machines
- Manufacture and repair Hydraulic cylinders
- Hydraulic test rig allows us to test repairs to hydraulic cylinders, fuel and oil tanks
- Specialists in all dustcart hoist, hopper and body repairs
- All types of steel repairs/flooring for vehicles – made to measure and fitted
- Machine all types of material from plastic to aluminium to stainless steel

We manufacture a variety of hydraulic cylinders at our site in Birmingham. We can test, re-seal, and adapt cylinders to suit your needs. Whether you have a leaking ram and need us to examine it to see what's causing the leak, or if you need to reduce the stroke length of an existing cylinder we are happy to help. We have state of the art CNC machines on site so If your cylinder has a damaged part be it the piston, gland nut, chrome or tube; We can manufacture it here from the old part, reassemble and test the ram for you.

Our CNC Vertical Machining Centres

Our CNC Lath in operation
